CU Conference on World Affairs

CU Conference on World Affairs

CU Today!

CU as a free and mandatory University for all HS kids.

CU then will have Cadavers for each student and physics with no math.

A seriously different Universe than CU Today. 1,001 Invention Project with AI too. Not quite T F

Women playing the role model of Goddess of Inspiration...

Einstein, if he had many wives playing the role model of Goddess of Inspiration we today in 2009 would know how gravity is generated. Where gravity comes from. Einstein was inspired by his wife, if he would have had many wives all playing the role model of a Goddess of Inspiration to get more Inventions out of him we would know where gravity comes from today in 2009. So this is an argument for polygamy, and letting women be the Goddess of Inspiration!

And any guys wanting to discover how gravity is generated has a pick up line for a wife who is willing to play the role model of a Goddess of Inspiration. Gravity is a bitch then you marry one... not in this marriage. He can tell her you and I, we can get Gravity Control, you are Hot, Hot, Hot! Marry me!

Saving Lives 101 Dr Susan Love,

Dr. Susan Love said a Doctor can take out your appendix and save your life, we need to save lives, "LOST" our losses are double, first those who lost getting into a medical school, second "LOST" is the millions who died from their "appendix" (or what ever medical emergency needing a MD there right now!) bursting with not enough Doctors.

Medical Schools after the ElectricWindmillCar Coup will be free but not mandatory! Factory shift workers, 3 shifts at the Harvard Medical School right after the ElectricWindmillCar Coup as we are short millions of MD's. A billion medical inventions have been lost by having so few MD's too. CIA statistics guys will have to testify at the "Oil Genocide Trial" about how many people didn't get into medical Schools and how many MD'S were needed just to do all the appendix operations, and how many new MD's we need to get a billion medical inventions in the shortest amount of time from today.

E-mc2 Big Ideas in Science. The Spitzer Space Telescope 2003. Infrared pictures. The telescope is not manned and it must be cooled to near absolute zero -459F and the working half must be a room temperature, now if NASA could have done this for cars in Florida where 100 kids are left to die each summer we would save lives, and jail time for the parents.

Gen. Orwell should be the one to hang as 1 is an accident but Gen Orwell has killed 100 kids left in hot cars every summer since 1980 when the ElectricWindmillCar was invented. This is one argument why every General at the Pentagon should be hanged in a mass hanging after the Coup.

Dr. Michelle Thaller argument to Dr. Susan Love's daughter not being able to pass subsets in astrophysics was the only way they were going to get me out of Harvard was kicking and screaming.

Invent or Die is really true.

As millions have died since 1980 because they could not invent anything, mostly because of Bill Gates \$ GREED, and the government lottery brainwashing Inventors into gamblers, who died by the millions. And LOST society a billion

inventions just during this Lotto Era \$\$\$.

This "LOTTO ERA" has been the worst genocide for aspiring "Inventors" in the history of the USA.

This is related to Katie Couric telling us they found a cure for breast cancer when she typed up the story in her office, to give false hope to the 100 women who died of breast cancer today. I think Katie Couric should hang for this and I will tell the Coup leaders this!

Dr. Michelle Thaller; I fell in love with Carl Sagan, this was Michelle's Goddess of Inspiration! I don't think they have a Goddess of Inspiration for women but if they did Carl Sagan was Dr. Michelle Thallers. He got her through the tooth pulling at Harvard and she stayed up all night until sunrise for the first time in her life, at Harvard with Carl Sagans Universe - book learning at Harvard.

Dr. Michelle Thaller is promoting Galileo's telescope yet she works for NASA who lost 700 manned space telescopes by sucking off Texas and Saudi Oil men instead of exposing the suppression of the ElectricWindmillCar in 1980. But these guys are all Fags now as the Saudi Prince was to tempting with so much oil money, they should have watched the Tempest before taking that free NASA trip to Saudi Arabia.

700 manned space telescopes LOST by NASA's top brass I hope Dr. Michelle Thaller puts it on her space. Below link is to Michelle's videos.

http://coolcosmos.ipac.caltech.edu/cosmic_classroom/ask_astronomer/video/index.html

Dr. Kirsten H. Sanford, KiKi is the Skinny Bitch Michelle wants to be for her husband... looking up Michelle's videos she was a skinny bitch not to long ago - grins. The Bird Brain is the name of her web page.

I get a script error on her page... do you want to run the script, I have no way to email her to tell her about this.

<http://www.kirstensanford.com/>

Observing and Observations were her opening Orwellian comments. I wonder how our Orwellian Universe exists. Kirsten wants to try some of my "total recall" memory pills as soon as I invent them. Ha. Vaccine comments to for my "Total Immunity" invention, yes Kirsten thinks I will get this invention someday. Thinks "total immunity" will be invented.

Einstein, if he had many wives playing the role model of Goddess of Inspiration we today in 2009 would know how gravity is generated. Were gravity comes from. Einstein was inspired by his wife, if he would have had many wives all playing the role model of a Goddess of Inspiration to get more Inventions out of him we would know were gravity comes from today in 2009. So this is a argument for polygamy, and letting women be the Goddess of Inspiration!

Erase your bad memories is for the Pentagon General the one star Generals at the Pentagon who have to look at the Goss and grosses pictures of cops burned in gasoline beyond recognition as these are Pentagon friendly fire kills on the streets of the USA ordered by the 5 star Generals for the oil money.

Goss and grosses pictures of cops and kids in the back seat burned in gasoline beyond recognition - all friendly fire kills from Kennedy, Bush, Obama, 5 Star Generals etc.

Goss and grosses pictures of cops and kids in the back seat burned in gasoline beyond recognition - all friendly fire kills from Kennedy, Bush, Obama, 5 Star Generals etc.

University will change after every General at the Pentagon is hanged for treason.

University will be mandatory and free, yes free textbooks and Microsoft Software, so everyone, not only Dr. Susan

Love can get ahead with C++ grin. I don't think Dr. Susan Love every tried to learn C++. I tried to learn C++ for over a year but not having the money to spend on the software and not having the money to spend on a Microsoft tutor it was to no avail, and all the Observers in Vail observed me at this time.

Dr. Susan Love said a Doctor can take out your "appendix and save lives", Susan did not mention the top brass at the AMA are mass murderers" because they limit the number of medical students thus millions over the years died from a ruptured appendix as there were not enough MD's in society Dr. Susan Love wants to save lives... I think she needs to expose the limiting of medial students and its side effects that are covered up by the AMA's top brass.

Top brass at the AMA are "mass murderers" because they limit the number of medical students getting into every Medical School in the USA

Top brass at the AMA are "mass murderers" because they limit the number of medical students getting into every Medical School in the USA

Dr. Susan Love mentioned the Bill Gates Foundation as she could use Bill's help but so could the millions of students who died because of Bill Gates GREED \$\$\$.

Susan told us about a DNA test being tested in India to replace the Pap test as millions of women in India die of cervical cancer. 5,000 a year die from Cobra bits working in the fields, I wish Susan would have had time to read all my webs as this is in there buried deep. I will invent a Cobra trap the first week freed. As this will only take a coupl days working with my MD and FBI wives.

Doctor can take out your "appendix and save lives", Susan did not mention the top brass at the AMA are mass murderers because they limit the number of medical students thus millions over the years died from a "ruptured appendix" as there were not enough MD's in society. I know who would taunt the AMA top brass after I put the Saddam noose around their necks.

Susan mention identical twin girls one with breast cancer on without, why?

Cadavers and physics with no math, for each student attending a mandatory CU University

A different Universe than CU Today.

Women playing the role model of Goddess of Inspiration in your dorm room. One thing none of the women on the panel knows is the Pentagon has Whore Houses outside of 99% of its military bases. These women are not working the Role Model as a Goddess of Inspiration. But the Pentagon knows the value of women.

CU Conference on World Affairs

CU Conference on World Affairs 4/10/2009 8:23 PM

Link below is to my old ATT.net web page. Japan is the top story here and no one from Japan was at the CU Conference on World Affairs, this page will explain why no one from Japan wants to be on the "security cameras" in Boulder Colorado...

Japan is a criminal State in the suppression of the ElectricWindmillCar and the burning in gasoline of cops and kids beyond recognition as friendly fire kills by the USA and Japan government leaders. No one from Japan was in Boulder Colorado because all the Japanese Observers believe more people will hang in Boulder after the ElectricWindmillCar is exposed and 9-11 would never have happened. And when the CIA statistics guys testify at the Oil Genocide Trials at CU how many were burned to death in gasoline for more oil money beyone recognition with the burned bodies on the Front Page of the Tokyo Times and the New York Times. WW II hanged a lot of Japanese more will hang this time!

4/9/2009 4:15 PM Dr. Susan Love's Noon Lecture was a Very Good C++

4/9/2009 4:15 PM Dr. Susan Love's Noon Lecture was a Very Good C++

4/9/2009..... Final Exam Grade _on the Cure for Breast Cancer. This picture has no head on it, no face, no name to the woman, and is not on the cover of her book! Dr Love could have gotten a real women with a name, a face and a story for a shocking gross and grosses book cover for the 100 women who died today and were not mentioned by the New York Times! ElectricWindmillCar - same gov guys will let 100 kids die in hot cars in the summer of 2009. 3009 kids left in a hot car will be ok. As the 3009 models cars will be climate controlled via H

4/9/2009 4:15 PM Dr. Susan Love's Noon Lecture was a Very Good C++

4/9/2009 4:15 PM Dr. Susan Love's Noon Lecture was a Very Good C++

Dr. Susan Love heard about her C- for her Breast Cancer book, so she did some extra homework overnight and managed to get a C+ grade for her noon lecture on Breast Cancer at CU World Affairs Conference.

Dr. Susan Love spoke of her Army of a million women working, not working 24/7 brainstorming a Rx Penicillin cure, inspiring men! No mention of women as the Goddess of Inspiration for Breast Cancer Work.

Dr. Susan Love didn't mention women inspiring men!

Dr Susan Love mention men scientists, said they like to work on rats, give them cancer and cure it because rats do not get cancer on their own scientist have to give it to them. And scientists don't like to work on women because their messy.

Dr Susan Love said 25% of breast cancer cells sleep, some sleep the woman's entire life span others wake and sleep and wake and sleep, but don't kill her!

Dr Susan Love said men kill, slash, burn, poison.... Women I would guess.
